**Our Snow Rail Systems  
don't penetrate your roof.**

# Top 10 Reasons To Buy A “Standing Seam” Metal Roof

1. Standing seam metal is thick and durable 24 gauge steel. Screw down metal roofing is 28 gauge steel.

2. Standing seam metal roofing has very few exposed fasteners.

Standing Seam Metal Roofing fasteners are under the roof protected from weather.

# Top 10 Reasons To Buy A “Standing Seam” Metal Roof

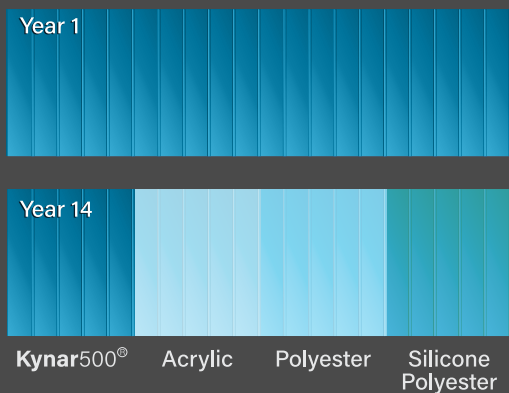

3. Panels are only 20 inches wide unlike screw down metal roofing being 3 feet wide. Less width means less expansion / contraction.

4. Energy Star Rated which means you may qualify for rebates.

5. Snow falls off easier without having exposed fasteners to get caught up on.

6. Paint system that's made to last by Kynar 500 series paint. This means a stronger coating that will protect the steel longer and fade less over time.

# Top 10 Reasons To Buy A “Standing Seam” Metal Roof

7. **Manufactured on site.**

8. **Increases the aesthetic and resale value of your home with a cleaner finish and longer lasting roof.**

9. **Standing seam requires very little maintenance.**

10. **Last but certainly not least, your return on your investment (ROI) is far greater.**

# Questions to Ask Before Buying A Metal Roof

- What style of metal?
- What gauge or thickness?
- When will the paint fade?
- Does it qualify for rebates?
- How long will it last?
- What will be my best ROI?
